

CYBERSECURITY AWARENESS MONTH

Identifying Phishing Emails

- Is the email from an unfamiliar sender, or is there a misspelling in the email address?
- Are there grammatical mistakes or misspelled words in the email that are unusual for the sender?
- Does the message instill a sense of urgency, such as indicating that immediate action is necessary?
- Are there unexpected attachments or suspicious links included in the email?

**Cybercriminals
can target anyone,
even you!**
